

## Find a port

Overview

## Cruise Isla Lobos de Tierra,

Isla Lobos de Tierra and Lobos de Afuera are steep and rocky islands that protrude more than 200 feet from the surface of the deep blue Pacific. An abundant array of marine mammals and seabirds surround these two islands. Sea lions bask on the beach and hundreds of Blue-footed Boobies can be viewed ashore as well, while Peruvian Pelicans pass overhead. Lucky visitors may see the rare blue whale pass by these islands.
